Test-Drop-Na file from tidyr

It is obvious that they would test the groups are preseved and error arise. It wasn't obvious to me to test that the `drop_na` function works list columns.

Vignette file

I looked at the `in-packages.Rmd` file. This file looks identical to what we have been learning how to do in R markdown. They have formatted sections, blocks of code, and detailed descriptions to accompany the code.
